

COVID-19 Update

We continue to remain open during the Coronavirus outbreak as we are considered an essential service by the state of Wisconsin. This allows us to provide essential dental care for those patients suffering from pain and emergency symptoms in an effort to help reduce the burden of such care in ERs, urgent care and medical clinics. We continue to temporarily suspend all non-emergency orthodontic and hygiene treatment at this time.

We understand this is a challenging time, but we want to reassure you that we are committed to continue to use preventive measures to prevent the spread of Coronavirus. In addition, we are emphasizing and encouraging proper hand hygiene among our patients. We kindly ask that if you are experiencing any common cold or flu-like symptoms that you consider rescheduling your appointment when you are feeling better. We will continue to monitor and re-evaluate the COVID-19 situation moving forward. The health and safety of our patients and staff as well as our community continue to be of the utmost importance to us.

Current office hours; Monday - Thursdays *(closed on Fridays)* **9:00am – 4:00pm**
